

What Does Learning Technologies Do?

A QUICK GUIDE TO ALL THINGS LEARNING TECHNOLOGIES AT COD

1.) BLACKBOARD SUPPORT

Need help understanding how to effectively use Blackboard in your courses? Getting frustrated by your gradebook? We can help you out with many of your Blackboard-related questions and issues.

2.) INSTRUCTIONAL DESIGN

Learning Technologies will work closely with you to develop or adapt courses for online, hybrid and face-to-face delivery. Our staff can help you design assessments and assignments, improve student engagement, select relevant OERs and much more. We're also on hand to improve course accessibility and ensure ADA compliance.

3.) MEDIA PRODUCTION

We have a dedicated media lab outfitted with audio/video recording equipment, green screens and a state-of-the-art lightboard where you can work with LT staff to film, edit, and share short videos and other media for your courses.

4. TECHNOLOGY SUPPORT AND EDUCATION

We don't just do Blackboard! Learning Technologies can help you choose and use a wide range of educational technologies, from web conferencing tools to online portfolios. We love sharing what we know, too! We regularly host workshops, post to our blog, and share relevant information on our social media sites to help you stay in-the-know about the latest and greatest emerging technologies.
